### Description

Airnet is a spray cleaner for car or industrial conditioners. Thanks to its special formulation, it forms thick foam that seep into the channels of the conditioner eliminating dirt, mould, encrustation, bad smells, avoiding them to reform. It has essence perfumes of environments.

### Instructions of use

**CAR PLANTS:** Turn off the air conditioner plant, insert the probes in the channel of the conditioner and if necessary remove the filter. Spray the product for 15 seconds to fill well the aeration channels so that the product enters well and clean all the parts. Wait for 15 minutes before starting again the plant

**INDUSTRIAL CONDITIONER:** Spray the product on the cold plate and on the channel, using the 60 cm canula that permits reaching the most difficult parts.
